

Power up learning with the latest technology

Because user experience matters

The real opportunity here is to support both staff and pupils alike with the customized, tailor-made experiences and support they need to achieve their learning potential. Reduce complexity and lighten the burden with cutting-edge devices, software solutions, and support in a single monthly payment with Lenovo TruScale Device as a Service (TruScale DaaS).

The need for users to stay connected, productive, and secure both at school and at home is now paramount. With TruScale DaaS, procuring, managing, and ensuring a consistent and reliable supply of quality devices and the supporting solutions that staff and students depend on is simple.

Cutting-edge hardware like the Lenovo ThinkPad® X1 Carbon powered by Intel vPro,® An Intel® Evo™ Design running Windows 11, delivers an unrivaled business and teacher PC solution. Plus software, expert services, and 24/7 Premier Support all come wrapped up in a single seamless, agile, and predictable payment experience.

Smarter technology for all

Lenovo

With TruScale DaaS, students and staff can benefit from using the very best PCs and devices without a large, upfront capital expenditure.

What is TruScale DaaS?

TruScale Device as a Service is a fully managed subscription-based model that offers access to a complete portfolio of hardware (including workstations, laptops, tablets, and phones), software, and trusted services with a flexible payment approach.

Lenovo is a true powerhouse when it comes to supplying schools with the state-of-the-art tools, technologies, and services they need to develop an effective learning environment that empowers students for success.

- **Select from a full catalog of devices**, including the very latest in PC technology like the ThinkPad® X1 Carbon running Windows 11 and powered by Intel vPro,® An Intel® Evo™ Design — built for what IT needs and students and staff want, wherever learning happens.
- **Technology finance — simplified.** No matter the scale or complexity of your technology investment, you pay for what you need, when you need it. You can dial up, down, or pause usage and payment on a percentage of devices through our Lenovo Global Financial Services (LGFS) “Flex” finance program.
- Keep users productive and devices running smoothly with **Premier Support and additional services** such as warranty extensions and Accidental Damage Protection that cover your fleet, both on campus and at home.
- Depending on the size of your school, you may also benefit from **expert services and automation** that enable user-led deployment and configuration from the cloud. It’s all part of your flexible and customizable TruScale DaaS agreement.

Benefits of TruScale DaaS for education

TruScale DaaS is a cost-effective way of maintaining up-to-date technology and delivering a secure, modern classroom environment for your staff and students.

- **Customizable solutions** are made to fit the specific needs of your organization
- Choose the devices, services, and software you need as part of a **flexible, scalable agreement**
- **Achieve a 1:1 device ratio** without making a large up-front investment
- **World-class Lenovo ThinkShield security** on Intel vPro® systems includes Intel® Hardware Shield, providing multilayered security that helps keep faculty and students' resources safer, wherever they're working
- **End-to-end lifecycle management services**, including configuration, deployment, device management, warranty repairs, and secure asset disposition
- **Intrinsic sustainability services** tailored to help manage your carbon footprint, extract value from the supply chain, and embrace the circular economy
- Take advantage of our tailored **education-specific solutions** like the Lenovo 500w Yoga® Gen 4 powered by the Intel® N100 or N200 processor and running Windows 11

Lenovo self-healing hardware- and firmware-level protections detect and block malware threats and device theft.

Supporting hybrid learning

Going forward, K-12 schools will continue to be a setting for hybrid education, offering a mix of onsite and remote education.

Successfully enabling hybrid learning is only possible with the right technology. With TruScale DaaS, your school can empower learning both inside and outside the classroom no matter how your students and staff are working.

Power their learning experience with the latest technology like the ThinkPad® X1 Carbon powered by Intel vPro,® An Intel® Evo™ Design running Windows 11, for business-class performance in the classroom.

Secure your students and staff at home and in the classroom with ThinkShield — our most comprehensive, end-to-end security solution that can be fully customized to your needs.

Lenovo

Customize your perfect fit

TruScale DaaS is not a “one size fits all” solution. Instead, it can be tailored to suit any educational institution’s budget, regulatory requirements, and teaching styles. With the right mix of configuration, deployment, automation, and IT intelligence services, K-12 schools of all shapes and sizes will be able to start the school year smoothly with their fleet of new devices, selected to best suit your unique needs.

Using one of the below solutions as your starting point, you can customize your TruScale DaaS solution with the hardware, software, and Lenovo services you need to suit your school’s unique requirements.

Simplify

Access **industry-leading hardware, plus 24/7/365 support and asset disposition**, with one simple monthly payment. This gives you the opportunity to leverage the latest technology, like the ThinkPad® X1 Carbon powered by Intel vPro,® An Intel® Evo™ Design running Windows 11 for business-class performance in education, and expert support you need to keep your technology running smoothly and efficiently. Need to own your devices? DaaS models allow for asset ownership as well.

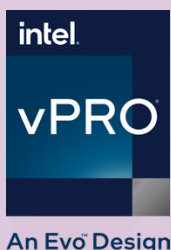

Accelerate

With all the features of Simplify, plus **streamlined configuration and deployment services** and premium end-to-end management, Accelerate enables your institution to hit the ground running with your new technology and gets students learning immediately.

Transform

Get everything from Simplify and Accelerate, plus **the flexibility to build your custom TruScale DaaS solution** that combines any options from our entire Managed IT Services, including Accidental Damage Protection, Keep Your Drive, Cloud Deploy/Recovery, Encryption, and much more!

Transform delivers premium IT services that are perfect for schools looking for an extra level of protection.
