Mounting IT challenges in hybrid learning

The benefits of hybrid learning are clear. By seamlessly integrating traditional classroom instruction with online learning, students get the flexibility to progress at their individual pace. Teachers can leverage tools to alleviate tedious work, improve productivity, and spend more time on what matters: their students.

But implementing a successful hybrid learning environment comes with its unique set of challenges. These include budget, cybersecurity and the lack of skilled IT personnel to facilitate the school's digital transformation.

Simple, consistent tools are the future of edtech

Hybrid learning is best sustained by tools that are easy to use and integrate into the current IT infrastructure. Simplicity drives faster adoption, while integration helps build a learning ecosystem that is crucial to effective and equitable hybrid learning. And with cybersecurity being an increasing concern among education institutes, ease of IT management is key to ensuring that the students, staff and faculty remain secure, and their data protected, wherever learning takes place.

Hybrid learning made effortless

Lenovo offers a wide range of education-ready devices, such as ThinkBook 14 powered by Intel® Core™ Ultra processor and Windows 11 Pro. Easy to use, manage, and enhanced by AI to bring about personalized teaching and engaged learning. Improve student focus with a simpler user experience, including centered Start, clean layout, and easy navigation.

Lenovo Digital Workplace Solutions are designed to power your user-centered borderless campus of the future:

- Service Desk
- Security
- Advisory Services
- Unified Endpoint Management
- Collaboration & Productivity
- Persona-based Configuration

All these are available through Lenovo TruScale Device as a Service (DaaS), that enables you to easily equip teachers, students and staff with the latest innovative hardware—without hefty upfront investments. Lenovo offers a wide range of Windows 11 devices built for learning and teaching, such as the durable and powerful ThinkPad E14 with Intel vPro® platform featuring Intel® Core™ Ultra processors and Windows 11 Pro. Improve student focus with a simpler user experience, including centered Start, clean layout, and easy navigation.

ThinkPad E14

Enable successful learning outcomes

with AI-powered Lenovo devices

Unlock the full potential of every student, equip educators with the best tools for the job, and empower critical school personnel to focus on what matters most with powerful Lenovo devices built for the future of education. Powered by Intel® processors that maximize productivity while eliminating micro-frustrations that deter focus – and complete with built-in AI capabilities to enhance personalized teaching and collaboration. With Windows 11 Pro, improve student focus with a simpler user experience, including centered Start, clean layout, and easy navigation.

Lenovo

ThinkPad X12 Detachable

More powerful than a tablet, but less cumbersome than a laptop. The sleek ThinkPad X12 Detachable combines power, security, and durability with portability and innovation. Stay productive – and connected – anywhere work and learning happens.

- Built on the Intel® vPro® platform with Intel® Core™ Ultra processor
- Windows 11 Pro
- Rigorous in-house and MIL-SPEC 810H testing

ThinkPad E14

The perfect tool for hybrid learning, this notebook unlocks new AI experiences to enhance productivity. Comes with two SODIMMs and dual SSDs improve flexibility, thereby allowing for configuration and expansion to meet your changing needs.

- Powered by the Intel vPro® platform with Intel® Core™ Ultra processor
- Windows 11 Pro
- Built-in AI-based features like background blurring and auto-framing

ThinkBook 14

Optimized for multitasking and offering robust productivity in a lightweight, stylish design that makes on-the-go learning easy. TÜV Eyesafe® certification minimizes eye fatigue, while the large keyboard and keypad ensures ergonomic comfort.

- Powered by Intel® Core™ Ultra processor
- Windows 11 Pro
- Fast charging, long battery life and remarkable responsiveness

Mounting IT challenges in hybrid learning

It's not enough to support your students, teachers, and staff with the best technology available. Managing that technology has to be stress-free and cost-effective for your school too. Lenovo Services gives you reliable, flexible and comprehensive support that helps you capture peak performance over the full lifecycle of your devices, with environmentally friendly measures that work within your budgets.

Premier Support Plus

Premier Support manages routine support tasks to let your IT team focus on education. Lenovo Premier Support Plus goes even farther, offering faster issue resolution and preventing IT issues before they become problems.

- 24/7/365 hardware and software support
- Direct access to advanced technicians
- Single point of contact and simplified escalation

Absolute

Streamline security and IT asset management with Absolute, which gives IT teams unprecedented control over fleet devices, including ThinkPad E14 powered by Intel vPro® platform with Intel® Core™ Ultra processor and up to Windows 11 Pro.

- Robust data collection on devices to understand usage
- Cloud-based dashboard with single pane of glass view
- Persistent visibility across all devices and applications

SentinelOne

Outsmart cyberattacks and protect everything – all the time – with this easy-to-manage endpoint solution. It can predict, stop, and correct the effects of malware with autonomous threat responses that trigger protective actions in real-time.

- Protect infrastructure from IoT attacks and compromised devices
- One-click remediation and recovery
- Real-time AI-based prevention and detection

Sealed Battery Warranty Upgrades

Extend the lifeline of your PC by easily extending your warranty coverage to substantial years to ensure resilience against battery failures. Enjoy significant cost savings while saying goodbye to the stress of battery failure.

- Elevate warranty coverage from 1 year up to 4 years
- Lower PC downtime
- Opt for onsite support by a certified Lenovo technician
